To whom it may concern

I have reviewed the information presentations (film and printed materials) prepared by The HINDA Institute.

The HINDA Institute has been at the forefront in providing support and resources for families of incarcerated. As a Jewish community we have a responsibility for every individual. Educating the Jewish community on these matters will enable the community to provide the necessary support to these families. Furthermore, the film is an excellent tool to help remove the stigma often associated with incarcerated family members.

Sincerely,
